Summary: In the last episode Carolina takes South and Wash's A.I and South isn't too happy, she she takes her anger out on Tex's locker and it just goes downhill from there. Characters are Tex, South, York, Wash, and North. Rated T for some language.

South vs Tex

Red vs Blue

" What! This is bullshit!" South says with anger. " South, calm down." North says to try to calm south down. " Calm down, that's easy for you to say you already have an A.I.! Who the fuck is she to take away our place!" South says even more mad. "Our turn will come, they've already put me back on the list for" Without even able to finish his sentence, Wash is forced down back on to the bench by South scolding at him. Then right next to him the empty bench is knocked over by her rage. "You ever notice every time you open your mouth, you make things worse?" York says historically. "Sorry." Wash says softly. "And two A.I., why is she so special, what's so special about either of them!" South says running over to Tex's locker, punching it and busting it open and breaking her name plate. "Pick it up." Tex says walking into the room. "What are you doing in here? You never come in here." York says confused. " I've come for Carolina; Pick it up." Tex continues. There's silence for several minutes until South says "No! You pick it up you stupid bitch!" Then South tries to deck Tex and misses. Then Tex grabs her arm jerking her toward herself and punching her, and holding her arm behind her back about to break it. "Try that again and I knock you out." Tex says letting her go. As South leaves the room her brother follows her. "Tex I don't know if your looking for a fight or what but, Carolina just went into surgery. We were about to head over to recovery, maybe you should come with us." York says. "Sure York im right behind I'll be there in a sec." Tex replies. York and Wash both leave the room as Tex picks up her broken name and puts it in her locker and sees some dogtags. She picks them up to just look at them for a second and closes er locker.

End  
file.
